CITY COUNCIL

# Waste & recycling collections during the Coronavirus outbreak

1. Please observe social distancing (2m or 6ft) when interacting with our crews.
2. Please wash your hands before taking the bin out and after collecting the bin.
3. Please bag your waste properly - see [www.worcester.gov.uk/coronavirus](http://www.worcester.gov.uk/coronavirus) for more information.
4. If your waste is presented in an incorrect manner (such as in open bags) we reserve the right to refuse to take the bin/waste. If we do we will leave a sticker to tell you this.
5. If you or a member of your household are self-isolating with Covid-19 symptoms or suspected of having contracted the virus it is important that all personal waste, such as tissues, is double-bagged and kept separate from other waste for 72 hours, before being placed in the black bin. Further information at [www.gov.uk/coronavirus](http://www.gov.uk/coronavirus)
6. Please bear with us as waste collections may be interrupted during the current situation. Please go to [www.worcester.gov.uk/coronavirus](http://www.worcester.gov.uk/coronavirus) for service updates.
